

Opus 355 | Armonk NY 10504

Vitra Furniture Proposal

vitra.

We at Vitra are convinced that our surroundings shape our thoughts and feelings- at home, at work and when we are on the go. That's why we strive to improve these surroundings every day, through the power of design.

Vitra is a family-run company, now in its third generation, and pursues a cultural and ecological mission alongside its commercial interests.

The Vitra Campus and Vitra Design Museum inspire visitors and staff with their exhibitions, design archives and a comprehensive collection of furniture. They foster an appreciation for the role of design and architecture in shaping the future.

Preserving our environment is expressed in every action Vitra performs. It is manifested in how Vitra's products are developed and produced, in the acquisition of raw materials and in the organisation of the supply chain. Every new insight is seen as a chance for further development.

Initiatives like the Vitra Campus architecture, the Vitra Design Museum, workshops, publications, collections and archives are all integral elements of Vitra. They provide innovative ideas and lend greater depth to the company's understanding of design.

- Nora Fehlbaum, CEO -

Vitra's headquarters are in Birsfelden, Switzerland. The company has production facilities in Weil am Rhein (Germany), Szombathely (Hungary) and in Sugito (Japan) for the Asian market. The most important markets for Vitra are Europe, USA, Asia and Australia.

1950
The year we were founded.

3rd Gen.
We are still a family-run company, now in its third generation.
